

Money Fractions:

Change (money less than \$1) is really just another way to think about fractions. For example, \$0.50 (fifty cents) is the same as $\frac{1}{2}$ of a dollar. Count the change below and write it as money, as well as a fraction of a dollar.

1.

Money Total:

Fraction of a dollar:

Money Fractions:

Grab a handful of change. Count it and write the total on the blank. Round to the nearest ten cents, and then estimate the fraction of a dollar your change is.

Money Total: Rounded Amount: Fraction of a dollar:

1. \$0.62 \$0.60 $6/10 = 3/5$
